Status of Implementation of Climate Change Action Plans

Dear Climate Change Technical Working Group members:

As discussed at the meeting of the CCTWG representatives held on February 20, 2017, the Department of Climate Change (DCC) is setting up a mechanism to facilitate regular reporting on the implementation of Climate Change Action Plans (CCAP).

The template provided herein is to be used by the concerned ministries/agencies to report annually on the status of implementation of their approved CCAPs in a consistent manner. This information is to be sent to DCC for compilation and analysis, and will be the basis for the production of an annual report to be shared with the National Council for Sustainable Development (NCSD).

*Only the 14 ministries and government agencies who have developed and approved a CCAP should fill this template. The respective CCTWG members will be responsible for liaising with staff from their institutions and ensure that the **template** is timely and accurately filled and **sent to CCTWG Chair** (email: chair-cctwg@camclimate.org).*

If questions arise while filling out the template, you can contact: vuthy.va@camclimate.org.kh

The CCAP Reporting Template has two parts:

- *Part 1 is to measure the overall implementation of CCAP*
- *Part 2 measures the progress of implementation each action that proposed in the CCAP.*

Part 1: Status of Overall Implementation of CCAP¹
